

# **REQUEST FOR PROPOSAL**

**For**

**Design and Development of Dynamic Website for Srinagar Smart  
City Limited SSCL**

**Under**

**SMART CITY MISSION (SCM)**

**in**

**Srinagar, Jammu & Kashmir**

**Issued on: 11-12-2017**

**Bid inviting Authority: Chief Executive Officer, Srinagar Smart City Limited**

## Request for Proposal (SSCL)

### 1. Project Overview

Government of India has announced a list of 100 cities in India to be taken up for development as Smart Cities and Srinagar is also in the list of cities approved to be taken up under Smart City Mission.

“Srinagar Smart City Limited” is a Special Purpose Vehicles (SPVs), constituted by the Government of Jammu and Kashmir for implementation of Smart City Development Projects in Srinagar City under Smart City Mission approved by Ministry of Urban Development, Government of India.

Srinagar Smart City Limited (SSCL) invites proposals for development of a customized professional website which is very fundamental for the implementation of the mission.

### 2. Audience

The website will act as a mass communication tool between the Organization, Government and the public at large. Website will store and display information about its activities and up-to-date progress in a dynamic form and maintain transparency with its citizens.

### 3. Objectives

Main objective of the proposed website is the corporate presence but it has to be a highly functional website that conveys the activities of the organization to its stakeholders.

### 4. Website Functionality Requirements

Website will comprise some static and mostly dynamic pages developed through asp.net or php framework with a strong database (MS SQL or Oracle) at the backend. The website shall be simple but having strong mathematical functionality. Site shall be accessible from a Desktop PC, Laptop running latest version of internet explorer, Chrome, Firefox and also from portable devices like Iphone, Androids and Tabs with all security features like captcha (Completely Automated Public Turing test to tell Computers and Humans Apart) code facility. The BIDDER shall also provide a security audit from an authorized certificate authority so that site can be hoisted on State Data Center Servers (J&K). Static Pages shall comprise ergonomically designed “home page” having navigational links to all static and dynamic pages visible to public.

Some of the Static Pages Include:

- About Smart City
- Aims and Objectives
- Organizational Structure

Some of the Dynamic Pages Include:

- Projects with submenus

## **Request for Proposal (SSCL)**

- Contacts with submenus
- Tenders with submenus
- Office Orders with submenus
- Notice Board for Public
- Opportunities
- Right to Information
- Grievances
- Feedbacks
- News Area
- Public Disclosures (Documents Social/Environmental)

Apart from the public area, website shall have a strong and secure Administrative Area will access level as Admin, Manager and power users also to be developed with a secure web development tool.

### **5. Requirements of the Proposal**

The areas covered by the proposal in terms of development shall include storing information of the Projects which can be dynamically updated, Project Progress, Project Documentation, Project Tendering, Website User Management, Asset Management, Bank Guarantees Management, Contractor Management, Document Storage and Management, HR Management, File Management and Movement, Feedbacks, Photo Gallery, Monthly Reports, News, etc.

### **6. RFP & Project Timeline Details**

The BIDDER shall submit their proposals based on the tentative requirements given by the client in this RFP. However the BIDDER is at a liberty to submit a comprehensive proposal that best suits the requirements of the organization. If the proposal submitted by the BIDDER is well appreciated by the client, client can take a liberal view in their technical evaluation process.

The Project has to be completed in 60 days in all respects from the day of signing the contract and the developer shall run the website on the instructions of client for next 90 days on trial basis during which 2 IT personnel of the client shall get trained. Firm shall submit a work program (computerized in MS Projects or Primavera) in 7 days after signing the contract. The firm will hand over a copy of source code and the database to the client on completion of the project.

## Request for Proposal (SSCL)
