

CEO ERA inspects construction site of additional block at LD Hospital

Building to be constructed using 'Base Isolation Technique'

RISING KASHMIR NEWS

Srinagar, Feb 23: Chief Executive Officer, J&K ERA Dr. Raghav Langer Saturday inspected the construction site of additional block of Lal Ded Maternity Hospital in Srinagar. The project has been taken up at an approximate cost of Rs 75 crore under the World Bank funded JTFRP (Jhelum Tawi Flood Recovery Project) for strengthening of critical infrastructure in the state.

The officers of JK PCC (which is designated implementing agency for the project) informed CEO ERA that the proposed additional hospital block will be constructed adjacent to the existing

hospital complex and the new building will be integrated with it. The building will be a six floor (including ground floor) with parking space, patients waiting lounge, canteen in ground floor, new – born section in 1st floor, operation theatres and labour rooms in 2nd floor, 3rd floor as patients waiting lounge and hospital equipments while as 4th and 5th floors will have space for wards. It was said that the building will be constructed using the Base Isolation Technique which is earth quake proof and has been recommended by the World Bank as the region falls under the Seismic Zone – V.
